Computer Store Computer and Laptop Repairs Virus Removal Katy TX Houston TX

Impress Computers USA

Basic Virus Removal Service

Price: **$99.99**

If you need you data then choose the Backup Wipe and Reload Option

I

If you need all programs and data kept intact then choose the Deluxe Virus Removal

If your computer has a virus or your windows is corrupt or running slowly this may be an option for you

The first thing that we will do is:

1. Check your hard drive for bad sectors or if it has a bad spin count. If the hard drive has any faults this would be a good time to consider if it's better to replace the hard drive or replace the computer.
2. Check your memory. In a lot of cases your windows may get corrupted by faulty memory
3. Check your motherboard for leaking capacitors. There's no point in putting money into a computer that is likely to crash down the road with a faulty motherboard

If you use microsoft office, we can also get your product key before we wipe the hard drive so that we can reinstall it after we are finished.

Once we have all your hardware checked we will then format your hard drive, install windows and download all of your drivers for sound, video, network cards etc.

We will then install an anti virus program like Microsoft Security Essentials.

You are now ready to collect your computer, but there are a few things that you will have to do:-

1. install your printer (you can get the software/drivers for your printer from the manufacturers website if you have misplaced your cd)
2. Install any other software
3. if you use outlook, outlook express or windows mail you will need to put in your username and password. If you have forgotten your password your ISP can reset this for you.

Re-installing Your Printer after you have finished:-

Follow these links to download your printer drivers

HP
Canon
Lexmark
Brother
Dell

We are located just north of the Katy Freeway and this is your best buy for same day virus removal service for the Katy and Houston Areas 77084 and 77450.
