Xerox V7 YELLOW TONER XEROX PHASER 6180 113R00725 6K HIGH YIELD

Price: **$159.99**

General Information

Manufacturer/Supplier:	V7
Manufacturer Part Number:	TXY26180H
Manufacturer Website Address:	www.v7-world.com
Brand Name:	V7
Product Name:	High Yield Toner Cartridge

Marketing Information:	When it comes down to it, what we all want is a toner cartridge that satisfies our needs at the very best possible price. V7 toner cartridges are 30-60 percent less expensive on a per copy basis than those sold by original equipment manufacturers (OEMs) and come with a 100 percent "worry-free" satisfaction guarantee. V7 toner cartridge are original OEM cartridges that are remanufactured recycled, keeping thousands of tons of industrial-grade plastics and metals from ending up in landfills each year. We guarantee that our printer cartridges will meet or exceed the quality of an OEM cartridge. Choosing remanufactured imaging supplies is not only a smart choice for your bottom line but it is also the best choice for the environment. Designed, engineered and manufactured in North American ISO 9001:2008--certified facilities, all of V7's remanufactured products are guaranteed to meet or exceed OEM performance while reducing landfill waste. V7's continuing investment in research and development, technology and innovation ensures quality far superior to what any of our competitors can offer. Remanufactured cartridges are good for the environment: When a cartridge is remanufactured, it is reused. Reusing a discarded product is the highest form of environmental responsibility. It is superior to recycling in that it doesn't use non-renewable resources to breakdown plastic or metal. Buying remanufactured V7 toner cartridges and recycling empty cartridges are easy ways to reduce the environmental impact of products while saving substantial amounts of money. The typical used toner cartridge weighs about 3 pounds and is composed of 40% plastic, 40% metal, and smaller percentages of rubber, paper, foam, and toner. The plastic is made of engineering-grade polymers and takes at least 1,000 years to decompose. However, approximately 97% of these combined components can be recycled and reused.
Product Condition:	Remanufactured
Product Type:	Toner Cartridge

Technical Information

Print Technology:	Laser
Print Color:	Yellow
Typical Print Yield:	6000 Page

Miscellaneous

OEM Brand:	Xerox
OEM Part Number:	113R00725
Compatibility:	**Xerox Phaser Printers:** 6180 6180MFP 6180MFP/N 6180/DN 6180MFP/D 6180/N

-

Warranty

Standard Warranty:	1 Year
